AUTHOR INDEX TO VOLUME 59

Bingham, D, 39
Bonomo, RP, 773
Calaf, M, 63
Calahorro, CV, 795
Cantón, E, 801
Cao, Y, 29
Castiñeiras, A, 801
Caubet, A, 63
Cervantes-Lee, F, 53
Chen, R, 29
Clark, P, 765
Condorelli, G, 1
Costanzo, LL, 1
De Flora, A, 773
De Guidi, G, 1
Díaz Díez, MA, 795
Dobrota, M, 39
Driessen, WL, 53
Durrant, E, 15
Eichhorn, GL, 765
Ferrari, RP, 811
Font-Bardia, M, 63
García Barros, FJ, 795
Ghosh, T, 827
Giuffrida, S, 1
Heath, SL, 785
Heaton, D, 15
Helliwell, M, 785
Johnson, ID, 785
Johnson, J, 15
Jordan, PA, 785
Larsen, C, 15
Laurenti, E, 811
Li, R, 29
Lin, H, 29
Maichle-Mössmer, C, 801
Martin-Polo, JJ, 53
Mendoza-Díaz, G, 53
Moore, GR, 785
Moreno, V, 63
Mukherjee, G, 827
Ortiz, R, 801
Pead, S, 15
Perelli, L, 801
Powell, AK, 785
Rizzarelli, E, 773
Ruiz, M, 801
Santoro, AM, 773
Solans, X, 63
Sortino, S, 1
Sun, H-Y, 29
Tabbí, G, 773
Tonetti, M, 773
Wang, K, 29
Watt, GD, 15
Webb, B, 15

SUBJECT INDEX TO VOLUME 59

^{27}Al NMR spectroscopic studies
  aluminum speciation, 785
Alkyl ester derivatives
  methionine and histidine with palladium(II) and platinum(II), 63
Aluminum
  X-ray and ^{27}Al NMR spectroscopic studies, 785
Antibacterial studies
  [Cu(cinoxacinate)$_2$]•2H$_2$O complex, 801
Antioxidant effect
  copper(II) complexes, 773
  inorganic ions, 1
Aqua-(1,10-phenanthroline)(L-methioninato-N,O) copper(II) nitrate monohydrate
  molecular structure and spectroscopy, 53
Cadmium
  binding to Apo, Holo, and horse spleen ferritin, 15
6-Chloropurine
  complexing with transition metal ions, 795
Chromatin
  DNA accessibility, 765
Cobalt(II)
  6-chloropurine complexing with transition metal ions, 795
  interaction with penicillins, 827
Copper
  antioxidant effect of inorganic ions on lipid peroxidation, 1
  aqua-(1,10-phenanthroline)(L-methioninato-N,O) copper(II) nitrate monohydrate, 53
  binding to Apo, Holo, and horse spleen ferritin, 15
Copper(II) complexes
  6-chloropurine complexing with transition metal ions, 795
  [Cu(cinoxacinate)$_2$]•2H$_2$O complex, 801
  encapsulated in human red blood cells, 773
  interaction with penicillins, 827
[Cu(cinoxacinate)$_2$]•2H$_2$O complex
  synthesis, characterization, and crystal structure, 801
DNA accessibility chromatin, 765
Dopamethylester o-semiquinones
  structural characterization and mechanistic studies, 811
Erythrocytes
  terbium binding, 29
Europium
  binding to cell membranes with ligands, 39
Ferritin, horse spleen
  metal ion binding to Apo, Holo, and, 15
Histidine
  platinum(II) interaction, 63
Iron(II)
  6-chloropurine complexing with transition metal ions, 795
Lanthanides
  binding to cell membranes with ligands, 39
Ligands
  lanthanide binding to cell membranes and, 39
Manganese(II)
  6-chloropurine complexing with transition metal ions, 795
Metal ions
  6-chloropurine complexing with transition, 795
  antioxidant effect on lipid peroxidation, 1
  binding to Apo, Holo, and horse spleen ferritin, 15
  interaction with penicillins, 827
Methionine
  platinum(II) interaction, 63
α-Methyldopa o-semiquinones
  structural characterization and mechanistic studies, 811
Nickel(II)
  6-chloropurine complexing with transition metal ions, 795
  interaction with penicillins, 827
o-Semiquinones
  structural characterization and mechanistic studies, 811
Palladium(II)
  alkyl ester derivatives of methionine and histidine with platinum(II) and, 63
Penicillins
  metal ion interaction, 827
Platinum(II)
  alkyl ester derivatives of methionine and histidine with palladium(II) and, 63
Red blood cells
  copper(II) complexes encapsulated in human, 773
o-Semiquinones
  structural characterization and mechanistic studies, 811
Spectrin
  terbium binding, 29
Terbium
  binding to spectrin, 29
X-ray
  aluminum speciation studies, 785
Zinc
  binding to Apo, Holo, and horse spleen ferritin, 15
Zinc(II)
  6-chloropurine complexing with transition metal ions, 795
